

Alexandra (Guiteau) Paillard, PhD

Alexandra is a Doctor of Pharmacy with over twenty years' experience in Pharmaceutical Development, Quality Assurance and CMC Regulatory Affairs.

She began her career in protein vectorization research in the MINT - INSERM1066 laboratory at Angers University. Alexandra then worked on bringing drugs to market for pharmaceutical companies, start-ups and consulting firms. In particular, she managed several pharmaceutical development projects and drafted a dozen MA dossiers (quality section) at LFB, Biogaran

and ProductLife Group.

Alexandra Paillard was also involved in setting up the quality system for the start-up DelleD until it obtained authorization to open the Etablissement Pharmaceutique Exploitant, and was responsible for Quality Assurance at Zach System, a manufacturer of active pharmaceutical ingredients.

Alexandra now uses her experience at Atonco to develop innovative radiopharmaceutical products in compliance with radiopharmaceutical regulations.

Alexandra holds a doctorate in pharmacy from the University of Angers and a PhD in pharmacotechnics from the University of Paris-Sud.
